

# ARJES VZ

## THE PRIMARY SHREDDER

**ARJES**  
... always a step ahead!

# The ARJES primary shredder

The ARJES primary shredder VZ 750 with its new patented T-blade profile, shreds almost any recycling material, even the difficult ones.

Innovations and decades of experience from Norbert Hammel have made the ARJES primary shredder a powerful and reliable recycling machine.

Transportation

Chain drive

Raptor XL

BioMaster for forest work

Secondary shredder

Special tools

Newly developed and patented biomass tool

- homogeneous granulate material
- 20% energy savings

Diesel engine

Wheel axle with drawbar

# Applications

- Wood waste
- Green waste
- Pallets
- Trunk wood, Biomass
- Rootstocks
- Domestic waste
- Commercial waste
- Synthetics/PVC
- Paper rolls
- Tetrapack
- Railway sleepers
- Cable drums
- Tires
- Roofing felt

## Discharge belt

- high discharge height of 4800mm
- galvanized stainless steel frame
- direct loading of trucks

Chain drive

overbelt magnet with reel protection

Electric motor

Wood waste

Biomass

Commercial waste

Synthetics/PVC

Tires

Type	Drive power		Throughput* (t/h)		Weight (t)
	Diesel (hp)	Electrical (KW)	Wood	Waste	
VZ 750	350	250	60	50	16
VZ 950	710	2x250	160	60	36

\*Throughput dependent on material / final granulate / loading
